

I am writing to tell you how much I love listening to K-LOVE Christian radio and how well it serves me as a resident of Northern Kentucky. If LPFM stations take priority over current FM translator services, I wouldn't be able to listen to K-LOVE and I would be devastated. I have been listening to K-Love every day in my house and my car for 4 years. I believe it is in the public's best interest to be able to be encouraged by Christian radio stations such as K-Love. Their messages are always positive and encouraging and safe for my three young kids' ears. I could never keep other stations on all day. Other broadcast stations definitely would talk about things I don't want my kids to hear and they wouldn't encourage me to be a better person and a better citizen in my community.

Thanks for listening! Leslie Pape
